

# FUTURETELLING | METHOD WORKSHEET

Planning point	Your story framework
<i>Describe your future user in one sentence or less. What does your user care about most?</i>	
<i>What do you want your audience to understand about your user's essential need(s)?</i>	
<i>What is the situation in the future? Keep it to a simple scene or two, if possible.</i>	
<i>What other people (or objects) will your user interact with in this situation?</i>	
<i>How do you want the audience to respond at the end of the situation?</i>
